

FATHER OFFERS REWARD FOR NEWS OF HIS SON

William M. Terrell Distributes Circulars Containing Information of Missing Young Man.

Boy Scouts Join in Search, Which Has Now Been Made Nation Wide.

WILLIAM PRESCOTT TERRELL

Hundreds of illustrated circulars offering a reward of \$500 for information leading to the whereabouts of William Prescott Terrell, son of Mr. and Mrs. William M. Terrell, 2714 Ontario road, who disappeared from his father's office, 1413 H street northwest, Monday morning, without leaving any word of his prospective whereabouts, have been sent broadcast. Police departments throughout the country have been asked to participate in the search, one troop of Boy Scouts today took a hand in the search, and unless something definite is learned tonight, it is stated, several hundred of the boys will be on hand tomorrow ready to lend assistance. A telephone message received last night by Detective Evans, who is in charge of the search that the police are making, located the missing young man at Sandy Spring Wednesday. The resident of that place who sent the message stated that young Terrell inquired the way to Frederick, and this morning Detective Evans started from this city to go to Frederick by automobile, hoping to obtain some definite clue to the young man's whereabouts.

Description Contained in Circular.

Mr. Terrell yesterday had hundreds of circulars printed. They contained information about his son's disappearance as follows:

"He is twenty-three years old, five feet six inches tall, stocky build, fair complexion, dark hair, blue eyes, and having a bald spot on the right side of his head."

"He wore a long gray overcoat and blue suit hat when he left home Monday, January 3, 1916."

"Please phone William M. Terrell, Columbia 2026, any information as to his whereabouts."

Scouts Join in Search.

A. C. Moses, chief scoutmaster, is displaying deep interest in his disappearance. He discussed the subject with his scoutmasters and furnished them copies of the circular. It was deemed inadvisable to call all the scouts from school today, it is stated, because of the time that had elapsed between the disappearance and the time it was called to the attention of the scout organization. Scoutmasters promptly had the circulars distributed, however, and tomorrow many of the boys will hike through the country in an effort to locate young Terrell.

Scout Troop, No. 5, with headquarters at Kensington, Md., about twenty in number, said to be acquainted with the missing man, this morning started a systematic search in that section under the direction of Scoutmaster H. A. Filer. Reports from Kensington suggested that the boys would make their way in the direction of Frederick, and make as thorough a search as possible of the wooded sections, in addition to making inquiries at stores and farmhouses.

Interested in Sociology.

The police are certain that Terrell visited the house of Leo J. Long, 4309 New Hampshire avenue, Tuesday, the day after he disappeared, and asked for something to eat.

He probably did so, it is thought, to gain experience to assist him in writing a book on the subject of sociology, having displayed an interest in that subject. When it was said that he had been seen at Sandy Spring, however, the police thought he probably was suffering from some temporary trouble, and expressed the fear that he was wandering aimlessly about the country, and suggested a fear that he might suffer from exposure and become seriously affected.

In his trip over the Frederick road today Detective Evans made numerous stops to inquire if anything had been seen of the missing man, and to advise people in the country of the great anxiety his parents feel about him. Prompt responses were made to his inquiries and suggestions, and it is stated, many residents of the country this afternoon are participating in the search.

CENTRAL POWERS SINK SIXTY-SEVEN SHIPS OF THEIR ALLIED ENEMIES IN SIX WEEKS

Austria-Hungarian and German Submarines Especially Active in the Mediterranean During the Last of October and the Months of November and December.

Correspondence of the Associated Press.

VIENNA, December 14, 1915.—Austria-Hungarian and German submarines sank in the Mediterranean eight troop ships, twenty-five transports and thirty-four merchantmen, with a total tonnage of about 225,325, in the last two weeks of October and the month of November, according to claims made in authoritative quarters here. The loss of life is said to have been very heavy in the case of troop ships, and the estimate is Norwegian and one Japanese.

The tonnage of the troop ships and transports was about 200,000, and that of the merchant ships 25,325, making made that it amounts to at least 5,000 men.

The largest of the vessels which it

is asserted have been sunk was the Cunard liner Transylvania, of 14,000 tons, loaded with troops and war materials. The list includes also one Japanese steamer, the Yasukuni, of more than 5,000 tons. Thirty-eight of the vessels sent to the bottom were of British registry, thirteen French, ten Italian, two Russian, two Greek, one a total of sixty-seven ships of approximately 225,325 register tons, or 159,000 net load tons.

Some Not in Daily Reports.

Many of the vessels reported lost in the following list have not been included in the daily reports sent out

by the various admiralities of steamers torpedoed. Private advices were received in New York late in September that the Transylvania, chartered by the British government for transport purposes, had been sunk off the island of Crete in the Mediterranean, but a denial was issued by the owners.

When the Japanese steamer Yasaka Maru was torpedoed on December 23, it was stated that she was the first vessel of Japanese registry to be sunk by an underwater boat, but the list obtained in Vienna indicates that another was lost some time previously.

Officials Fear Dynamiting.

Today it was reported that a considerable quantity of fuse had been stolen from a stone quarry near the steel plant and officials fear dynamiting may be attempted.

The situation at the plant of the Republic Iron and Steel Company, where 2,500 are on strike and 6,000 idle as a result, remained unchanged today. Last night strikers gathered near the plant and threatened to attack the office buildings with stones and clubs, but were dispersed by police.

Both plants are independent and are not affected by the announcement of the United States Steel Corporation yesterday that all employees would get an increase in wages of 10 per cent. The management of both concerns have offered the employees an advance of 3 cents an hour, from 19 1/2 to 22 1/2 cents, but the strikers have refused, insisting on 25 cents.

Would Designate National Anthem.

To make "The Star Spangled Banner," words by Francis Scott Key and music by Samuel Arnold, the national anthem of the United States is the object of a bill introduced today by Senator Clapp.

SUGGESTS DISTRICT BUILD POWER PLANT

Commerce Chamber Committee Reports on Its Investigation of Great Falls Plan.

Should the federal government refuse to assume the task of harnessing the power of the Great Falls of the Potomac at this time the District of Columbia should take up the work on its own behalf, the expenses to be met by a bond issue.

Such is the conclusion of a special committee of the Chamber of Commerce appointed to investigate and further the Great Falls power project. At a meeting held at noon today a report of a subcommittee, of which Roy C. Claffin is chairman, dealing with the feasibility of the plan was adopted. This subcommittee made an investigation in behalf of the larger body, and its report is to be submitted to the full chamber.

Finds Rates Higher Here.

The subcommittee in its report states that it has found the rates for electric current in the District of Columbia are higher than the average.

"However, it is not alone the fact that Washington has a higher rate for electricity than the average city on which we base our conviction that the water power of the Potomac should be developed," says the report. "If this

were the case we could merely offer as a remedy a municipal electric plant operated by the city which would give us a considerably lower rate than we pay at present, as is being demonstrated in many cities, large and small, notably Cleveland, Ohio.

"The city of Cleveland during the first eight months of the year just closed generated over 16,000,000 kilowatt hours of current at an average cost of a trifle over 1 cent per kilowatt hour, but it was generated with a shower of cobblestones, bricks and clubs. One man was injured.

Street cars were stopped, workmen on board dragged off and placed on cars going in opposite directions and sent away. Stones were thrown through car windows.

The East Youngstown police force of ten men have been on duty continuously for twenty-four hours.

Benefit in Municipal Plant.

"We believe a municipal plant would greatly benefit the District of Columbia whether deriving the power from coal or water. After a study, however, of the plans and recommendations of former United States Chief of Engineers Col. Langfitt, whose conclusions are concurred in by all his successors and other prominent and capable engineers, your committee is convinced that the development of the power of the falls of the Potomac river is the most desirable means of supplying electric current to the city of Washington.

"The cost of current from Great Falls for the District would not only be as low as the average of other cities, but would probably be lower than one-third that average.

"In case it should be determined that the federal government does not desire to assume the task at this time, it is suggested by your subcommittee that Congress be requested to authorize the District of Columbia to take up the work on its own behalf, the expenses to be met by a bond issue.

"It is believed that the Great Falls project is so entirely worthy and practical in respect to being a paying proposition in every way that the District of Columbia would do well to take the work on its own shoulders. Other cities of lesser population have carried through projects as great, through bond issues, and results have proven the wisdom of their investments."

"EVENING OF DEFENSE" AT BELASCO THEATER

National Preparedness to Be Considered From Every Angle by Prominent Speakers.

Illustrated Lectures, Beginning 8:15 P.M. Sunday, for Benefit of Belgian Scholarship Fund.

National preparedness is to be considered from every angle when "An Evening of Defense" is presented, under the direction of Nevil Monroe Hopkins, for the benefit of the Belgian scholarship fund at the Belasco Theater Sunday, beginning at 8:15 p.m. The lectures are to be illustrated and will be given by men of national reputation.

FEARS WHITE HOUSE CRUSH.

President Forbids Further Invitations for Reception Tonight.

The pressure for invitations to the first White House social function tonight continued today, but all officials at the executive offices had received imperative orders from the President that no further invitations should be issued, and this order was adhered to. The President gave the orders yesterday.
